

ROCK CRAWLER

The Rock Crawler Overland Gear Checklist

Jeeps are built for technical terrain and serious rock crawling. Your priorities are a quality lift kit, beadlock-capable wheels, a bumper-mounted winch, and a compact recovery kit that fits your shorter wheelbase. Priority: 1 = do first, 2 = next season, 3 = nice-to-have.

RECOVERY & PROTECTION

- | | |
|--|------------|
| ■ WARN VR EVO 10-S or ZEON 10-S Winch | Priority 1 |
| Front-bumper mount is standard on Jeeps. 10K lb is right for JL/JK/TJ.
trailbuiltoverland.com/articles/best-overlanding-winches.html | |
| ■ Steel Front Bumper (Warn, Poison Spyder) | Priority 1 |
| Required for winch mount. Adds approach angle protection. | |
| ■ MaxTrax MKII Recovery Boards | Priority 1 |
| Compact enough for Jeep storage. Works in every terrain type.
trailbuiltoverland.com/articles/best-overlanding-recovery-gear.html | |
| ■ Kinetic Recovery Rope + Soft Shackles | Priority 1 |
| Soft shackles are safer than steel in tight trails.
trailbuiltoverland.com/articles/best-overlanding-recovery-gear.html | |
| ■ Skid Plate Set (engine, transfer case, gas tank) | Priority 1 |
| Non-negotiable on rock. Factory skids are inadequate.
trailbuiltoverland.com/articles/best-skid-plates-for-off-road-trucks.html | |
| ■ Rock Sliders / Rocker Guards | Priority 1 |
| Protect the most vulnerable part of a Jeep's body. | |
| ■ Overlanding First Aid Kit | Priority 1 |
| Remote-rated. Carry tourniquet and wound packing.

LIFT, WHEELS & TIRES

■	2–3.5" Lift Kit (Fox, Bilstein, Rough Country) Allows 35" tires on JL without rubbing. Don't skip an alignment after.	Priority 1
■	35" All-Terrain Tires (BFG KO2, Falken Wildpeak) Best balance of trail capability and highway manners.	Priority 1
■	Beadlock-Capable Wheels Essential for airing down to 10–15 PSI on rock.	Priority 2
■	ARB Portable Air Compressor Air down for the trail, air back up for the highway.	Priority 1
■	Tire Repair Kit (plug + CO2) Fix a flat on the trail. Carry 2 plugs minimum.	Priority 1

POWER & CAMP

■	Goal Zero Yeti 500X Power Station Compact lithium station. Powers fridge, lights, and devices for 2–3 days. trailbuiltoverland.com/articles/best-portable-power-stations-for-overlanding.html	Priority 2
■	Dometic CFX3 35 Fridge Compact fridge for Jeep's limited cargo space. trailbuiltoverland.com/articles/best-overlanding-fridges.html	Priority 2
■	Smittybilt Overlander RTT Best value RTT for Jeeps. Fits on roof rack, 2-person capacity. trailbuiltoverland.com/articles/rooftop-tent-buying-guide.html	Priority 2
■	Roof Rack (Gobi, Smittybilt, Mopar) Required for RTT. Choose one rated for your tent weight.	Priority 1

LIGHTING

- | | | |
|---|--|------------|
|  | KC HiLiTES Gravity LED Pro6 (pair)
Excellent A-pillar mount option for Wranglers. Compact and bright.
trailbuiltoverland.com/articles/best-off-road-light-bars.html | Priority 2 |
|  | Baja Designs Squadron Pro (pair)
Best pod lights for bumper or A-pillar mount.
trailbuiltoverland.com/articles/best-off-road-light-bars.html | Priority 2 |
|  | Rock Lights (underbody)
Useful for technical night driving and camp ambiance. | Priority 3 |

NAVIGATION & COMMUNICATION

- | | | |
|---|--|------------|
|  | Garmin inReach Mini 2
Satellite communicator. Essential for remote rock crawling.
trailbuiltoverland.com/articles/best-vehicle-communication-gear-for-overlanding.html | Priority 1 |
|  | Onx Offroad App
Download trail maps offline. Shows land ownership and trail ratings. | Priority 1 |
|  | GMRS Radio
Convoy communication on technical trails.
